## Recommendations to Improve Jumia's Performance

**Focus More on the Most Profitable Categories**

Invest more in products and categories with high profit margins to enhance overall profitability.

**Improve Discount Strategies**

Carefully monitor the impact of discounts and avoid large discounts that reduce profit without a significant increase in sales.

**Expand Operations in High-Performing Cities**

Strengthen marketing and distribution in cities showing high demand and good profitability to increase market share.

**Reduce Delivery Times**

Improve the supply chain and logistics to shorten delivery periods, increasing customer satisfaction and reducing cancellation or return rates.
